

Appendix TOP-003-7-QC-1
Specific provisions applicable in Québec for standard
TOP-003-7 – Transmission Operator and Balancing Authority Data and Information
Specification and Collection

This appendix establishes specific provisions for the application of the standard in Québec. Provisions of the standard and of this appendix must be read together jointly for comprehension and interpretation purposes. Where the standard and appendix differ, the appendix shall prevail.

A. Introduction

1. **Title:** No specific provision.
2. **Number:** No specific provision.
3. **Purpose:** No specific provision.
4. **Applicability:** In the application of this standard, all reference to the term “Bulk Electric System” or “BES” shall be replaced by the terms “Main Transmission System” or “RTP” respectively.

This standard applies to the facilities of the Main Transmission System (RTP) and, for the requirements R1 and R2, to the facilities designated under this requirement.

4.1. Functional Entities: No specific provision.

5. **Effective Date:**
 - 5.1. Adoption of the standard by the Régie de l'énergie: Month xx, 202x
 - 5.2. Adoption of the appendix by the Régie de l'énergie: Month, xx, 202x
 - 5.3. Effective date of the standard and of its appendix in Québec: Month xx, 202x

B. Requirements and Measures

No specific provision.

C. Compliance

1. Compliance Monitoring Process

1.1. Compliance Enforcement Authority

In Québec, “Compliance Enforcement Authority” means the Régie de l'énergie in its roles of monitoring and enforcing compliance with respect to the Reliability Standard and to this appendix.

1.2. Evidence Retention

No specific provision.

1.3. Compliance Monitoring and Enforcement Program

The Régie de l'énergie establishes the monitoring processes used to evaluate data or information for the purpose of determining compliance or non-compliance with the Reliability Standard and with this appendix.

Violation Severity Levels

No specific provision.

D. Regional Variances

No specific provision.
